

PITHIA

Blood and Transplant

Newsletter

November 2017

Welcome to the first PITHIA trial newsletter...and what an exciting year it's been so far!

After months of preparation (and endless cups of tea ☕☕☕), PITHIA has now been submitted for HRA and REC approval. The trial will be assessed by an Ethics Committee at the end of this month. In the meantime, we are working towards finalising the practical aspects of the trial.

Each R&D department has been contacted, and provided with the required documents for site set-up...please help us to get the 'green light' at your site! The cluster randomisation will not be able to occur until all sites have approval in place.

Trial Meeting - 3rd October 2017

Thank you to everyone who attended the launch event. We had representation from (almost!) every participating transplant centre. The presentations are now available on our website.
